Overview information

Before the actual terms and conditions text, this section provides you with general information.

This booklet contains the insurance terms and conditions that apply to Folksam passenger cars and light trucks.

When we use the words "you", "your" in the terms and conditions, we mean – unless otherwise stated – both the policyholder and each of the other insured persons. "We" and "us" refer to the insurer, i.e. Folksam.

The insurer is Folksam Mutual Non-Life Insurance, corporate registration number 502006-1619, Address: 106 60 Stockholm. Telephone: 0771-950 950.

Folksam's operations are supervised by the Swedish Financial Supervisory Authority and our marketing complies with Swedish law.

Folksam mutual non-life insurance mainly provides insurance for homes, motor vehicles and boats. The scope of your insurance is stated in the insurance terms and conditions. These are provided in Swedish and all communication between you and us is in Swedish. All mailings regarding your/your company's insurance holdings are sent to your registered address/your company's address, unless we agree otherwise. Unless otherwise agreed, the insurance period is one year.

Right of withdrawal

When you take out insurance through a distance contract or when selling outside Folksam's business premises, you have the right to cancel the purchase within 14 days according to the Distance Contracts and Contracts Outside Business Premises Act. The time is counted from the date the contract was entered into and that you received information and terms and conditions in the case of a distance contract or information about the right of withdrawal in the case of a sale outside Folksam's business premises. If you want to use your right of withdrawal, please contact Folksam, for example by telephone, e-mail or by writing to us. You can also use a cancellation form that you can find at konsumentverket.se.

If you have already paid for the insurance, we will refund the money and no later than 30 days from the date you notify us that you want to exercise your right of withdrawal.

We have the right to demand premium for the period during which the insurance was valid.

General insurance terms and conditions

Which vehicles do the terms and conditions apply to?

1. The terms and conditions in this booklet apply to passenger cars and light trucks (except taxis, commercial vehicles, rental or cars for professional freight transport) which, according to the insurance certificate, are insured through Folksam Car Insurance.

What is included in the insurance?

2. You can insure your car or light truck with different coverages. What is included in your insurance is stated in the insurance certificate. Below you can see the different coverage options available:

	Car insurance Great	Light truck insurance Large	With vehicle damage (full insurance)	Without vehicle damage (half insurance)	Traffic*	Shutdown insurance
Traffic	X*	X*	X*	X*	X*	
Crisis	X	X	X	X	X	X
Fire	X	X	X	X		X
Glass	X	X	X	X		X
Theft	X	X	X	X		X
Machine/electronics	X	X	X	X		
Rescue	X	X	X	X		
Legal protection	X	X	X	X		X
Car damage	X**	X**	X			Limited carriage damage
Damage to the vehicle interior	X	X				
Key loss	X	X				
Misfuelling	X	X				
Rental car	X	X	****	****		
Assistance	X	***	****	****		

* Statutory insurance

** Not included if you have chosen semi-insurance Large

*** Assistance can be taken out as an addition to Light Truck Insurance Large

**** Rental car and Assistance can be taken out as additional insurance to half or full insurance.

Where the insurance applies

3. The insurance is valid in the EEA countries and in the other countries that are connected to the green card system. The insurance is also valid during transport between these countries.

However, breakdown insurance according to points 46–50 only applies in Sweden. Motor vehicle insurance always applies worldwide according to the Swedish Traffic Injury Act (TSL) for damage caused to a Swedish citizen or a person residing in Sweden as a result of driving a Swedish-registered car or light truck.

Deductibles

4. The deductibles vary depending on which part of the insurance is affected. The deductibles that apply in your case can be found in the insurance statement. Sometimes special deductibles apply. These are stated under the respective sections of these terms and conditions.

How the deductible is applied

The deductible is deducted from the claim amount.

If, in the event of a claim, you can receive compensation through several elements of this insurance or through several consumer insurance policies with us, we will only deduct one deductible – the highest – from the total claim amount.

Crisis therapy

If you suffer from mental illness as a direct result of a claim that is compensable under this insurance, you can receive crisis therapy in the form of ten treatments with a licensed psychologist or psychotherapist that we recommend. We also reimburse necessary and reasonable travel expenses up to a total of SEK 4,000 and costs for an interpreter. Treatment and costs must be approved by us in advance, carried out in Sweden, started within one year and completed within three years of the claim. Crisis therapy applies without deductible.

Crisis therapy can be provided to the owner of the vehicle, to drivers who use the vehicle with the owner's permission and to passengers in or on the vehicle. Crisis therapy also applies if you have been injured by someone else who is covered by the insurance. Crisis therapy does not apply if you have committed or participated in an intentional act that is punishable under Swedish law.

Motor vehicle insurance

5. The provisions that apply to motor vehicle insurance are found in the Traffic Injury Act (TSL).

Motor vehicle insurance applies to damage resulting from traffic with the insured car or light truck, for example for personal injuries and damage to other people's property outside the vehicle.

Your motor vehicle insurance does not apply to damage to your own car or light truck or to property in it.

The maximum compensation is SEK 300 million.

6. We undertake to pay some damage costs in addition to what follows from TSL:

- a. Damaged clothing and other belongings that the injured driver, passenger or other person was wearing for personal use. We do not compensate for money, jewelry or valuables. The maximum compensation is 25 percent of a price base amount per person. If a helmet or other personal protective equipment worn at the time of the accident is damaged, this will be compensated without any amount limitation.
- b. Damage to property outside the car or light truck even if the person who suffered the damage was a contributory cause. This extended right to compensation does not apply to damage
 - on a motorized vehicle or attached trailer
 - on tram vehicles
 - on property transported by vehicles mentioned above
 - on property belonging to the policyholder or the insured's car or light truck user or driver
 - if the property owner was grossly negligent or caused the damage intentionally.

The maximum compensation is 25 percent of a price base amount per person.

7. We negotiate with the person claiming compensation and, in the event of a lawsuit, we will pay your legal costs to the extent that they are reasonable and consistent with our interest in the lawsuit.

We are not bound by you, without our approval, assuming liability for damage, approving compensation claims or paying compensation.

We will pay a maximum of the amount corresponding to the traffic injury compensation that the injured party could have received under the TSL.

If someone suffers a personal injury where compensation is to be paid from your motor vehicle insurance, we will also pay compensation for certain attorney's fees that the injured party has incurred in the out-of-court settlement of the claim in Folksam. Compensation for attorney's fees covers the attorney's reasonable time spent on necessary measures in the case and at most according to the hourly rate set by the government for the legal aid area or according to the criminal case rate. When assessing which attorney's fees can be paid, the memorandum on the division of duties between attorneys and attorneys in personal injury cases, jointly drawn up by the Swedish Bar Association and the Swedish Insurance Association, is applied. We do not pay attorney's fees that are related to the insurance company's handling or examination of the case or to examination in an administrative court, unless we have specifically undertaken this.

We obtain and pay for the medical investigation in the case. We do not pay compensation for further such investigation, unless we have specifically undertaken to do so. Regarding which representatives may be engaged, the same rules apply as for Legal Protection, see point 71.

Anyone who may be entitled to state legal aid should apply for it in the first instance. We do not pay the costs that would have been paid from public funds if the application had been made.

Deductibles

8. Motor vehicle insurance applies with a basic deductible that is stated in the insurance certificate.

In some cases, the insurance applies with an increased deductible, see below.

- a. The deductible is SEK 1,000 if the driver was under 24 years of age when the injury occurred.
- b. the deductible is 10 percent of a price base amount
 - if the driver drove the vehicle without a valid driver's license
 - if the teacher/student has not complied with the rules that apply to practice driving during practice driving
 - if the driver is subject to a penalty order or a judgment that has become final
 - if the driver was guilty of drunk driving or aggravated drunk driving
 - if the driver caused the damage intentionally or through gross negligence.
 - if you cannot show who drove the vehicle in the event of a traffic accident

According to TSL, the total deductible in motor liability insurance may not exceed 10 percent of a price base amount for a natural person.

However, the deductible under b) does not need to be paid if, in the case of a drink-driving offence, it is clear that these circumstances did not contribute to the damage.

Upon request from us, you must pay the portion of the claim amount paid that corresponds to the deductible.

We can transfer a claim for unpaid deductible to the Swedish Motor Insurance Association.

9. You don't have to pay any deductible

- when paying only for an injured reindeer or dog
- if the damage happened while the car or light truck was stolen/seized
- if the damage happened when a police officer or other authorized person inspected the vehicle
- if you can show that someone other than yourself or the driver caused the damage and we cannot show that you or the driver were complicit.

Bonus in motor insurance

10. Bonus means that you receive a discount for claim-free years on your motor insurance premium, except for the part that is a fixed basic premium.

New insurance is placed in class 7. If a claim has occurred in the past year, it is placed in class 6. Moving from class 7 to 8 requires that the past 15 years have been claim-free. For each claim that leads to a payment from the motor vehicle insurance, the class is lowered by one step. The reduction takes effect from the next insurance year. After each insurance year without a claim, the insurance is moved to the next higher class. If you have at least 15 claim-free years, you will not lose the discount for the first claim.

The discount on motor liability insurance is not reduced in the cases specified in paragraph 9.

Property protection

What is included in the property protection 11. In

this section, points 11–50, we explain how the insurance applies to the property you have insured – your car and light truck and the equipment that is included in the protection.

Property protection may include:

- Fire
- Glass
- Theft
- Machinery/Electronics
- Car damage
- Damage to the vehicle's interior
- Misfuelling
- Key loss

You can see in the insurance statement which of these insurance policies are included in your property protection.

What property is insured

12. Property protection applies to the insured car or light truck in its standard version and to other normal equipment for the vehicle, such as child seats, fire extinguishers, equipment for the vehicle (tools worth a maximum of SEK 1,000).

Audio equipment, car phones or other similar equipment, as well as information and communication systems for data, navigation, TV and video are also included, provided that they are permanently installed and designed for use only in the car or light truck. Electronic equipment that can be used outside the vehicle is not covered. For example, we do not replace DVDs/CDs, mobile phones, MP3 players or GPS. Vehicle parts and equipment that you have removed or have not yet installed are also included. Wear and tear and age deductions are made according to point 54.

Wheels, both tires and rims, if these are not in the regular range of the vehicle manufacturer or any of its dealers for the make or model in question, the maximum compensation is SEK 50,000. The insurance applies to an extra set of wheels. Wear and tear and age deductions are made according to point 54. See also the due diligence requirements in point 25.

The above-mentioned equipment is replaced without any amount limitations if it is *factory-fitted* (see definition below).

If the equipment is *retrofitted*, the compensation is limited to 1 price base amount. The amount limitation also includes accessories for replaceable equipment. Installation costs are compensated in addition to the amount limitation. Age and deductible deductions are made on retrofitted property, see point 54.

Definition

By factory-fitted equipment we mean original equipment that is unique to the car brand and integrated into the vehicle and that has been fitted by the manufacturer or by its authorised workshop.

Vehicles older than 30 years

Applies to passenger cars, light trucks. The maximum compensation amount after deduction for excess from property protection is SEK 300,000 for cars older than 30 years.

Who the insurance applies to 13. The

insurance only applies to your own legal financial interest as the policyholder, owner and main user of the insured property. The insurance also applies if you have leased the vehicle. The insurance then covers the vehicle in the same way as if it were your own. If you are not the actual owner and main user of the vehicle, the property protection does not apply and no compensation can be paid in the event of damage.

However, the above does not apply if this person is your spouse/registered partner or cohabitant, provided that you are registered and reside at the same address.

We have the right to pay compensation to

- the seller or lender if the car or light truck was purchased on installments or credit.

Compensation is

then paid to the seller/creditor up to his/her remaining legal claim.

- the owner if you have rented the car or light truck for longer than a year, that is, leased it.

We have the right to pay compensation to the owner even when the insurance obligation is fulfilled by the guardian registered in the Road Traffic Register.

Bonus in car damage insurance

14. Bonus means that you receive a discount on the vehicle damage premium for claim-free years, except for the part that is a fixed basic premium.

New insurance is placed in class 7. If damage has occurred in the past year, it is placed in class 6.

Moving from class 7 to 8 requires that the last 15 years have been claim-free. For each claim that leads to a payment from the vehicle damage insurance, the class is lowered by one step. The reduction takes effect from the next insurance year.

After each insurance year without a claim, the insurance is moved to the next higher class.

If you have at least 15 claim-free years, you will not lose the discount for the first claim.

The discount on vehicle damage insurance is not reduced in the cases specified in point 9. For vehicle damage insurance, the discount is also not reduced in the event of another external accident, intentional damage by a third party or collision with an animal.

Fire insurance

15. The insurance applies to damage caused by fire, lightning or explosion. We do not cover explosive goods that are not vehicle accessories. By fire we mean "fire that has broken loose".

A flat tire is not defined as an explosion.

In the event of arson, the insurance only applies if the fire was started by a third party. A third party means someone other than yourself or someone who acted without your consent.

Short circuits of electrical cables are covered under the machinery and electronics damage insurance policy, item 30.

For certain equipment, special limits apply, see point 12.

16. We do not pay for damage •

caused by a traffic accident (the fire damage itself is of course compensated, but not consequential damage, for example by driving through ditches – then the vehicle damage insurance applies instead)

- which occurred during participation in a competition, training, demonstration, practice drive or similar use of the vehicle within a fenced area and other closed area or road intended for such use
- that happened while driving the vehicle at speed, such as street racing or track racing.
- driving.
- for which the seller or another person is responsible under the Consumer Purchase or Consumer Services Act, or for which the seller or another person is responsible under a guarantee or similar undertaking. However, we will compensate if the insured person shows that the person responsible does not remedy or pay.

Due diligence requirements

17. Electrical cables, fuel lines and components must be professionally installed.

To heat or dry the vehicle, you may only use devices that we have approved for that purpose. The vehicle manufacturer's instructions must be followed.

18. If you breach the care requirement in clause 17, we will normally make a deduction of 25 percent from the compensation. The deduction is made in accordance with what is reasonable taking into account the relationship of the situation with the damage that occurred, the intent or negligence that has occurred and the circumstances in general. In more serious cases, the deduction may be greater, even to the point that you will not receive any compensation at all. We will not make a deduction if the negligence is minor. See also clause 120.

Deductibles

19. The deductible is stated in your insurance certificate.

Glass pane insurance

20. The insurance applies to damage to the windshield, side window or rear window that consists of the window being broken through, cracked or shattered. Glass roof/sunroof and headlight glass are not covered.

For semi-insured cars or light trucks, we will replace damaged windows in the event of a collision with animals.

21. We do not pay damages

- that happened in a collision, rollover or when the vehicle was driven off the road. In that case, the vehicle insurance applies instead. non-life insurance
- that happened while participating in a competition, training, demonstration, practice run or similar use of the vehicle within a fenced area and other closed areas or roads intended for such use
- that happened while driving the vehicle at speed, such as street racing or track driving
- on headlight glass or sunroof made of glass, plastic or other composite material. We also do not cover cracks due to age and wear in door windows, side and rear windows made of plastic or other composite material.
- for which the seller or another person is responsible under the Consumer Purchase or Consumer Services Act, or for which the seller or another person is responsible under a guarantee or similar undertaking. However, we will compensate if the insured person shows that the person responsible does not remedy or pay."

Deductibles

22. The deductible is stated in your insurance certificate.

Theft insurance

23. The insurance covers damage caused by theft or seizure of means of transport. We also pay for damage caused by attempted theft or seizure.

For removed wheels, see the caution requirement in point 25.

The insurance also applies to damage caused by intentional damage in connection with such an event. In the event of loss of the vehicle, you will receive compensation if it has not been recovered within one month of us receiving your report of the theft.

Scope limitation The insurance

applies with a scope limitation for vehicles with a value of 1 million SEK or more. These vehicles must be equipped with a tracking device approved by the Swedish Theft Protection Association's standard 1073. If, in the event of theft of the vehicle, the tracking device is missing or it was not activated, the compensation will be reduced by 25 percent. However, the compensation will not be lower than the limit for the requirement for tracking devices. The scope limitation applies if it is stated in your insurance certificate.

24. We do not pay damages

- if *someone in your household* takes the car or light truck and uses it without permission
- if someone else who has access to the car or light truck uses it without permission.

Note to paragraphs 23 and 24

The concept of theft is defined in the Penal Code. It means that someone unlawfully takes something that belongs to another person with the intention of, for example, keeping or selling it.

Theft of means of transportation means that someone unlawfully takes a vehicle belonging to another person to use it, but without the intention of keeping or selling it.

However, if someone who has access to a vehicle uses it without permission, it is neither theft nor appropriation. Instead, it is *unlawful use*, which means that someone is unlawfully using someone else's vehicle that they already have in their possession.

The insurance also does not apply to fraud or embezzlement.

By *someone who belongs to your household*, we mean a person who is registered in the population register and lives at the same address as you, provided that you share a household.

Due diligence requirements

25. When you leave your car or light truck, any property stored in it that is not permanently attached must be locked in the car or light truck. Any vehicle parts or equipment that is not permanently attached must be stored in a locked garage or other locked room that only you have access to.

26. If you breach the duty of care in clause 25, we will normally make a deduction of 25 percent from the compensation. The deduction is made in accordance with what is reasonable, taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the circumstances in general. In more serious cases, the deduction may be greater, even to the point that you will not receive any compensation at all. We will not make a deduction if the negligence is minor. See also clause 120.

Due diligence requirements

27. The car and light truck must be locked with a steering wheel or gear lock when leaving it. The key must not be left in the vehicle or near it and must otherwise be stored in a safe manner. The key must not be provided with information about name, address or registration number.

The requirement to lock does not apply when the car or light truck is stored in a locked garage or other locked premises to which you alone have access. The requirement to lock does not apply when the car or light truck is stored in a public garage, where you must hand over the key to the anti-theft system. The requirement to lock also does not apply when you have the vehicle in a workshop for repair or service. If you lose a key to a vehicle that is equipped with an immobilizer, you must ensure that the key is decoded.

28. If you breach the duty of care in clause 27, we will normally make a deduction of 25 percent from the compensation, but not less than SEK 5,000. The deduction is made in accordance with what is reasonable, taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the circumstances in general. In more serious cases, the deduction may be greater, even to the point that you will not receive any compensation at all. We will not make any deduction if the negligence was minor. See also clause 120.

Deductibles

29. The basic deductible is stated in your insurance certificate.

You avoid the basic deductible if the car or light truck is stolen and found using a tracking device.

Machinery and electronics damage insurance

30. Machinery and electronics damage insurance applies to cars that are no more than eight years old since they were first registered and have been driven no more than 15,000 kilometers. For batteries and electric power sources for electric cars, hybrid cars and plug-in hybrid cars, it applies to cars or light trucks that have been driven no more than 20,000 kilometers.

The insurance applies to light trucks that are no more than ten years old since they were first registered and have been driven no more than 15,000 kilometers.

The insurance ends as soon as any of the limits are crossed.

If you cannot prove that the damage or fault occurred before the aforementioned limits were exceeded, it shall be deemed to have occurred on the day you reported the damage or fault to us.

Car Insurance Large

In Car Insurance Large, the machinery and electronics insurance applies to cars that are no more than ten years old from the first registration date and have been driven no more than 15,000 kilometers. The insurance ends as soon as any of the limits are exceeded.

31. The insurance applies to damage or defects to the following components in factory-fitted standard design.

Cooling system

- interior heater that is integrated into the car or light truck's cooling/heating system (except remote transmitter)
- air conditioning, climate control

Gearbox, power transmission

- power transmission, gearbox including discs in automatic transmissions, control electronics and controls • clutch including cable, hydraulics, electronics and controls, flywheel (except worn clutch lining lamella and consequential damage)
- drive axles and wheel bearings on drive axles

Electronics

- electrical cables (except defroster coils in windows)
- software errors that affect progress
- generator (and consequential damage that affects the vehicle's electronic function) • main control unit, electrical center with fuse box • trip computer, cruise control
- multifunction/combination instrument, (speedometer, engine information)
- electronic anti-theft and alarm
- central locking unit including electronics for door locks (except keys/cards/smartkey and remote control)
- information and communication systems for data, navigation, multimedia • seat heating
- steering wheel heater
- motor for window lift, convertible, tailgate and sunroof and sliding door • motor for retractable towbar (originally installed)
- motor for adjusting the seating position on the driver's and passenger's seat (except comfort function) • windshield washer pump
- wiper motor for windscreen and rear window
- rain sensor

Brake, steering

- servo system for brakes including master cylinder • control and regulation system for anti-lock brakes, electronics for parking brake (except wheel cylinders, brake calipers, brake discs/drums, brake pads) • servo system for steering gear
- steering gear (except struts and ball joints)

Safety and driver assistance systems

- airbag including sensors and actuators • seatbelt, seatbelt reminder and seatbelt tensioner
- collision warning system, auto braking system • anti skid/spin system (except shock absorbers, air bellows and springs)
- lane and side assist systems including sensors
- parking assistance including sensors and camera
- headlight and taillight systems for Xenon, LED, Laser light (except replaceable light sources and glass)
- control motor for adaptive headlights
- level control for headlights
- motor for electric rear/side mirror

For cars or light trucks with electric motor as a power source

- electric motor for propulsion of the car or light truck including its control electronics
- mild hybrid system
- battery for high-voltage systems for driving electric cars, plug-in/charging hybrid cars and fuel cell cars (except the car or light truck's starter battery)
- charging cable and charging socket for plug-in and electric vehicles (except external charging unit)
- OBC onboard battery charging system
- cooling/heating for high-voltage systems
- the car or light truck's heating system
- DC/DC converter, inverter DC/AC, AC/DC

For cars or light trucks with internal combustion engines as a power source

- engine for propulsion of the car or light truck including its control electronics
- engine cooling system including oil cooler and heater element
- ignition switch start function (except ignition key/card/smartkey)
- starter motor including start/stop system (except the car or light truck starter battery)
- manifold
- turbo/supercharging system, intercooler, supercharging unit including control system
- exhaust gas purification system including particulate filter, ad-blue and its control system (except muffler and exhaust pipe)
- fuel system including injection system and its control functions. Tank fitting and sensors (except lines, filters, fuel tank)
- ignition system and its control functions (except spark plugs and starter battery)

32. We do not pay for damage or defects • that

have arisen as a result of the car or light truck being converted from a fuel type to a
otherwise unless the car manufacturer has approved this.

- that occurred during participation in a competition, training, demonstration, practice drive or similar use of the vehicle within a fenced area and other closed area or road intended for such use.
- that happened while driving the vehicle at speed, such as street racing or track racing.
driving.
- which is fire damage according to point 15, glass damage according to point 20, theft damage according to point 23 or damage to the vehicle according to point 39.
- for which the seller or another person is responsible under the Consumer Purchase or Consumer Services Act, or for which the seller or another person is responsible under a guarantee or similar undertaking. However, we will compensate if the insured person shows that the person responsible does not remedy or pay.

Oil consumption and decline in battery performance that are within the car manufacturer's tolerances are not considered faults and are therefore not covered by mechanical damage insurance.

Definition

By factory-fitted equipment, we mean equipment that is unique to the car brand and integrated into the car and light truck and that has been fitted by the manufacturer or by its authorized workshop.

Due diligence requirements

33. The car manufacturer's instructions for service and maintenance (including software updates) must be followed (from the time the vehicle was first registered). Service and maintenance must be carried out professionally. This also applies to the time before you took out the insurance and you must be able to show that the vehicle has been serviced. If you cannot show that the vehicle has been serviced, it is considered as no service.

The vehicle's cooling system must contain sufficient antifreeze. The vehicle manufacturer's instructions regarding fuel and maintenance must be followed. Components that deviate from the car or light truck's standard design, are tuned or do not meet the vehicle manufacturer's requirements must not be used. The vehicle must not be driven in a way that exposes the engine or power transmission to abnormal stress, for example driving with the warning light on.

Charging of Plug-in hybrid and Electric cars must follow the car manufacturer's instructions. The car manufacturer's instructions regarding patterns and tire dimensions on four-wheel drive cars and light trucks must be followed.

34. If the care requirements in section 33 are breached, we will normally make a deduction of 25 percent from the compensation. The deduction is made in accordance with what is reasonable taking into account the relationship of the situation with the damage that occurred, the intent or negligence that has occurred and the other circumstances. In more serious cases, the deduction may be greater, even to the point that you will not receive any compensation at all. We will not make any deduction if the negligence is minor. See also section 120.

Deductibles

35. The deductible is stated in your insurance certificate. The higher deductible applies to cars and light trucks that have exceeded 100,000 kilometers. The deductible is applied to the different components separately, see point 31.

Large Car Insurance for passenger cars and light trucks also includes items 36–38.

36. Damage to the vehicle's interior and luggage compartment as well as damage to the roof box and cargo rack.

We pay for damage to the vehicle's interior in the passenger compartment or in the trunk, as well as damage to the roof box and cargo rack due to a sudden and unforeseen event.

We do not pay for damage that is excluded in the property protection, terms and conditions 11–56. We do not compensate for damage caused by animals or insects or damage caused by wear and tear or neglect. We do not compensate for damage due to technical failure.

The maximum compensation amount is SEK 65,000. The deductible is stated in your insurance certificate.

If the damage to the compartment is due to illness, the insurance applies without a deductible.

37. Misfueling

We pay compensation for the costs of cleaning the fuel tank, pipes and filters in the event of incorrect fuel filling. We also compensate for any basic deductible for towing in connection with incorrect fuel filling. Any consequential damage can be compensated if you have valid machinery and electronics damage insurance. The deductible is stated in your insurance certificate.

38. Key loss

We pay compensation for lost or destroyed ignition keys and original remote controls for central locking. We replace a new key and any necessary recoding or decoding. The maximum compensation is SEK 25,000. You can use this no more than once per insurance year. The deductible is stated in your insurance certificate.

Vehicle damage insurance

39. The insurance applies to damage caused by a traffic accident, other external accident or by intentional damage caused by a third party. The insurance also covers damage to a light truck caused by the emergency services as a result of a transported horse that has panicked. The insurance also covers internal damage to the light truck that affects the vehicle's function and that is caused by a horse.

Some examples of when the insurance applies:

If you crash, overturn, drive into a ditch, are hit by a string of explosions or falling objects such as a tree, or if the vehicle is damaged during transport, for example on a ferry or train.

For certain equipment, special limits apply, see point 12.

Deliberate vandalism

If your car or light truck is damaged by intentional damage by a third party, we will pay

- half the vehicle damage deductible for a car or light truck that is insured with us for vehicle damage
- the part of the vehicle damage guarantee deductible that exceeds SEK 3,000.

We do not pay for damages that are compensated according to clauses 23–29 and that have occurred due to theft/burglary or attempted theft.

40. We do not pay damages

- that happened while participating in a competition, training, demonstration, practice run or similar use of vehicles within a fenced area and other closed areas or roads intended for such use unless we have specifically undertaken this
- that happened while driving the vehicle at speed, such as street racing or track racing.
driving
- on a vehicle part with a design, manufacturing or material defect, if the damage was caused by the defect
- which consists of wear and tear or is due to inadequate maintenance. Paintwork and stone chip damage which is due to Normal wear and tear in relation to the car's age and mileage is not compensated.
- through rust, corrosion, cold, wet or damp. However, we will compensate for damage that is a direct result of such event as specified in paragraph 39
- caused by an explosion in the engine, muffler, tires or hoses.
- for which the seller or other person is responsible under a warranty or similar undertaking. However, we will compensate if the insured shows that the person responsible does not remedy or pay.

Due diligence requirements

41. You must ensure that the vehicle is not used when it has been issued with a notified/qualified driving ban.

The car manufacturer's instructions for service and maintenance must be followed (from the first day the car was registered) and must be carried out professionally.

You must ensure that the vehicle's maximum towing and load weight is not exceeded.

42. If you breach the due diligence requirement in clause 41, we may make a deduction from the compensation.

The deduction will be made as is reasonable taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the other circumstances.

In serious cases, the deduction may result in you not receiving any compensation at all. We will not make any deduction if the negligence is minor. See also point 120.

Deductibles

43. The deductible is stated in your insurance certificate.

If the driver was under 24 years of age when the injury occurred, the basic deductible is increased by SEK 1,000 (does not apply in the event of an animal collision or a collision with another known vehicle abroad). In the event of a simultaneous traffic injury, only a youth deductible is charged.

You avoid the basic deductible in the event of a collision with another known vehicle abroad.

You avoid the basic deductible in the event of a collision with animals.

You do not have to pay a deductible in the vehicle damage guarantee in the event of a collision with an animal. A prerequisite is that the car or light truck is semi-insured with Folksam.

Due diligence requirements

44. You must ensure that the vehicle's tires meet the requirements set out in statutes and regulations (for example, tread depth and seasonal tires.)

45. If you breach the care requirement in clause 44, we will normally make a deduction of 25 percent from the compensation. The deduction is made in accordance with what is reasonable, taking into account the relationship of the situation with the damage that occurred, the intent or negligence that has occurred and the circumstances in general. In more serious cases, the deduction may be greater, even to the point that you will not receive any compensation at all. We will not make any deduction if the negligence is minor. See also clause 120.

Layoff insurance

46. Unemployment insurance applies if this is stated in the insurance certificate. The insurance is only valid in Sweden.

47. The insurance applies when the car or light truck is deregistered in the Road Traffic Register and is not used.

The terms and conditions of property insurance apply. Legal expenses insurance is also included. However, rescue, machinery and electronics damage insurance is not included. Vehicle damage insurance according to point 39 is included, but with the restriction that damage due to a traffic accident is not included. However, the insurance applies to damage due to a traffic accident to the parked car or light truck if it is transported on a trailer.

The insurance also applies during direct travel to and from the nearest vehicle inspection station or other authorized facility for inspection.

In these cases, traffic and rescue insurance also applies. Please note that the limitation in the vehicle damage insurance still applies.

Deductibles

48. The deductibles that apply are stated in your insurance certificate.

Common due diligence requirements for property protection

49. You may not drive the car or light truck if you

- does not have a valid driver's license
- may make you guilty of drunk driving or aggravated drunk driving.

You must follow the rules that apply during practice driving.

50. If you breach the duty of care in point 50, we may make a deduction from the compensation. The deduction will be made in accordance with what is reasonable, taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the other circumstances.

In serious cases, the deduction may result in you not receiving any compensation at all. We will not make any deduction if the negligence is minor. See also point 120.

How we value and compensate your damaged property

51. We will compensate your damage according to the insurance terms and conditions that applied to your insurance on the date of the damage.

52. We will compensate you for your financial loss according to the rules below. We will only pay for loss or other inconvenience resulting from the property not being able to be used if we have specifically undertaken to do so.

We do not replace sentimental value or other value of a personal nature.

53. We have the right to decide whether damage should be compensated in cash or repaired, as well as the method of repair, or replaced with the closest equivalent property.

We also have the right to determine where the property is to be purchased or repaired. We assume ownership of the replaced property and replaced parts unless otherwise agreed.

We undertake to suggest a workshop that is environmentally approved by us for repairs. In the event of a total loss, we will arrange for the car or light truck to be handed over to an environmentally approved car dismantler.

For environmental reasons, it is important to minimize waste and promote the reuse of parts as much as possible. Therefore, this insurance applies to:

- repair methods should be used that have the least possible environmental impact without compromising quality or traffic safety is affected
- used original parts should be used if possible
- damaged plastic parts should be repaired if possible. The workshop used must be environmentally approved. known and have special expertise in plastic repair
- Damage to the windshield should be repaired if possible.

In the event of damage not covered by insurance, we can provide suggestions for an environmentally approved workshop or car dismantler.

54. Compensation for damage is based on the value of the property when purchased in the general trade (market value) immediately before the damage. If the car or light truck is not profitable to repair in relation to its market value or if it has not been recovered after theft, we value it including equipment in accordance with point 12. This rule is deviated from partly in accordance with the next paragraph and partly in accordance with point 55. In the event of damage to or theft of equipment only in accordance with point 12, we calculate the market value by means of fixed age deductions from the new purchase price. We do not make any deductions for the first year from the date the equipment was purchased new. Thereafter, we deduct 10 percent for each year that has begun, but not more than 80 percent.

In the event of theft or damage to tires, we make a deduction for tire wear in percentage, in relation to a new tire. In the event of theft of wheels, the age deduction for rims is also calculated according to the same rules as equipment according to the above paragraph. If wear is not evident or can be proven, an age deduction of 20 percent per year started is made instead (however, a maximum of 80 percent). For tires older than eight years or where the tread depth is less than that decided by the legislator, no compensation is provided. If wheels, both tires and rims, are not in the regular range of the vehicle manufacturer or any of its dealers for the make and model in question, the maximum compensation is SEK 50,000.

The current deductible is deducted after the age deduction has been made.

55. In the event of damage to a car or light truck that is compensable from property protection, see points 11–50, compensation will be provided with a new car or light truck of the same or equivalent make, type and model year as the damaged vehicle (new value compensation) if the following conditions are met: • the vehicle is serially manufactured

- the vehicle is covered in Sweden by the manufacturer's warranties and the Swedish general agent's make commitments
- you have owned the vehicle continuously since it was first registered
- the damage has occurred within two years of the vehicle being first registered (pre-registration at a car dealer does not count)
- the vehicle has been driven no more than 4,000 kilometers. • reasonable repair costs for the vehicle and the equipment included in the vehicle's "new price" is estimated to exceed
 - 50 percent of this price at the time of the claim if the claim has occurred within one year after the vehicle was first registered and the vehicle has been driven no more than 2,000 kilometers
 - 80 percent of this price at the time of the claim if the claim has occurred within two years after the vehicle was first registered and the vehicle has been driven no more than 4,000 kilometers.

When calculating, value-added tax or other comparable tax is included in the repair costs.

At the same time, damaged equipment is replaced with new equipment if it was included in the vehicle's "new price".

If there are special reasons, we have the right to compensate for the damage in cash instead. In this case, we will pay no more than what it would have cost us to purchase a new car or light truck.

56. We don't pay

- cost of improvements or changes to the vehicle made in connection with damage repairs
- cost of painting, for example motif and effect painting, or other modification and/or conversion that does not correspond to that which the vehicle had in the standard version.

However, we will pay for trademark or design-protected company symbols and advertising text • additional costs that are due to you not following our instructions regarding the place of purchase or repair, for example, more expensive purchase or repair costs

- any decrease in value after repair
- additional costs due to spare parts being shipped in a different way than normal, unless we approved this
- normal wear and tear when the vehicle has been used in connection with theft or other unlawful seizure
- value added tax when the policyholder or car owner is liable for such tax.

Valuation of movable property

57. You may request that a valuer, appointed by the Chamber of Commerce, provide a statement on the value of your property. In connection with the request for a valuer's statement, we withdraw our offer.

If the appraiser comes up with a higher value than we do, we will pay the entire valuation cost. Otherwise, you and we will each pay half, up to SEK 3,000.

We only replace a valuation.

Rescue insurance

58. The rescue insurance applies to personal and vehicle transport that has become necessary because you have encountered such emergency situations as stated in points 59-60 while travelling with the insured car or light truck. Travel and transport costs must be reasonable and made using the cheapest means of transport that can be used taking into account the circumstances. If you arrange transport by private car or light truck, we will pay compensation in accordance with the Swedish Tax Agency's rules for tax-free car compensation with your own car or light truck. The rescue insurance also applies to a trailer, such as a caravan. The insurance also covers costs for necessary telephone calls to Folksam and the emergency services with a maximum of SEK 500.

Passenger transport

59. If your car or light truck is stolen, damaged or breaks down, we will pay the costs of travel to your home for the driver and passengers. Instead of a return trip, we will pay the cost of continuing the journey to your destination if this is not more expensive.

We pay for the return trip, however, to the car's home location, for passengers who cannot continue the trip because the driver has had an accident, acute illness or has died.

Vehicle transport

60. If your car or light truck is stolen, damaged or breaks down, we will pay the cost of towing to the nearest suitable workshop, or repair on site if this is not more expensive.

We pay for the transport of the car or light truck to the vehicle's home in Sweden, if it cannot be driven home due to the driver or passenger suffering from an acute illness, accident or death.

If the damage occurred abroad, we can also pay for the repatriation of the vehicle in an unrepaired condition if we assess that the car cannot be repaired according to the car manufacturer's instructions. This is provided that the damage is compensable according to the insurance conditions, for example, in the case of mechanical damage, the car or light truck must be covered by a valid mechanical and electronics damage insurance. Transporting the vehicle home must first be approved by us.

Vehicle pickup

We will pay for the travel costs of one person from your home or destination to collect your car or light truck after repairs or when it has been recovered after theft. You must arrange the collection yourself, but we must first approve it.

If there are special reasons, we can arrange for collection.

We don't pay.**61. Rescue insurance does not pay • costs for the**

driver's transport home if he suffers an accident, acute illness or has deceased

- costs for passengers' home transport if they suffer an accident, acute illness or has died
- additional costs that are due to you not following our instructions for picking up or transporting your car or light truck home, for example higher towing costs
- costs that you would have incurred even if the damage had not occurred
- costs incurred if the cause of the downtime is due to a lack of fuel or a discharged battery battery intended for propulsion of the car or light truck
- collection or transport home of the car or light truck in a damaged condition (repair must therefore be made first) unless the damage occurred abroad, see point 60
- higher costs for collection or home transport than the car or light truck is worth when the transport is done
- costs incurred when the incident occurs while participating in a competition with the vehicle, training, demonstration, practice driving or similar use of the vehicle within a fenced area and other closed area or road intended for such use.
- costs incurred during high-speed driving with the vehicle, such as street racing or track driving.
- for which the seller or other person is responsible under a warranty or similar undertaking. However, we will compensate if the insured shows that the person responsible does not remedy or pay.

Due diligence requirements**62. You may not drive the car or light truck if you**

- does not have a valid driver's license
- may make you guilty of drunk driving or aggravated drunk driving.

You must follow the rules for practice driving. You must also ensure that the vehicle is not used when it has been issued with a driving ban.

63. If you breach the care requirement in clause 62, we may make a deduction from the compensation. The deduction will be made as is reasonable taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the other circumstances.

In serious cases, the deduction may result in you not receiving any compensation at all. We will not make any deduction if the negligence is minor. See also point 120.

Deductibles

64. The deductible is stated in your insurance certificate.

Legal expenses insurance

Who the insurance applies to

65. The insurance applies to the owner, user and driver of the insured car or light truck – the insured – in their capacity. The insurance does not apply to anyone who has used the vehicle without permission.

What the insurance covers

66. The insurance applies to disputes that can only be tried as civil cases (C-cases) by a district court, court of appeal or the Supreme Court. A dispute is considered to arise at the time when a party fully or partially rejects a claim made. If a dispute must first be handled by another body, the costs of such a preliminary examination are not covered by the insurance. If a review is granted in the aforementioned case, the insurance also applies to this.

Legal protection does not apply to costs for review by the Traffic Injury Compensation Board.

67. The insurance applies to criminal cases where the insured is suspected, prosecuted or ultimately convicted of

- crimes that according to the law can only result in a fine, for example negligence in traffic
- causing the death of another person or causing bodily injury or illness.

If a person charged with gross negligence in traffic or for gross negligence causing the death of another person or causing bodily injury or illness can demonstrate through a final judgment that the crime was not considered serious, the insurance will apply.

What the insurance does not cover

68. The insurance does not apply to

- disputes that can only be heard by administrative authorities or courts, for example county administrative board or general administrative courts
- disputes that are handled as so-called small claims in a legal proceeding. Small claims are disputes where the value of what is being claimed is less than half the price base amount. The amount limitation also applies to disputes abroad. However, disputes with Folksam regarding the insurance contract are covered
- disputes where you do not have a legitimate interest in having your case dealt with
- disputes with someone you are or have been married to, registered partner with or cohabiting with
- disputes related to assigned claims.
- for the lessor, disputes relating to claims arising from the professional rental of the car or light truck
- criminal cases where the suspicion of a crime or prosecution relates in part to intentional or grossly negligent acts, such as drunk driving, aggravated drunk driving or illegal driving. The insurance also does not apply to disputes relating to damages or other claims due to the insured having committed, or being suspected of having committed, such acts.
- disputes relating to claims for damages against you if the liability for damages may be covered by motor insurance
- disputes concerning personal injury settlements as long as compensation for attorney fees can be provided through motor insurance.

When the insurance applies

69. Main rule

You can receive legal protection if the insurance is valid when the dispute or suspicion of a crime arises and if it has been valid continuously for at least two years. The insurance does not have to have been with Folksam the entire time. If you previously had the same type of legal protection insurance with another company and it has expired, you can count it against you.

If you haven't had insurance for two years

If you have insurance when the dispute arises but have not had it for as long as two years, you can still receive legal protection if the events or circumstances that form the basis for the claim or suspicion of a crime occurred after the insurance took effect.

If your insurance has expired

If you no longer have legal expenses insurance when the dispute arises because the need for insurance has ceased, you may still be able to obtain legal protection if the insurance was in force when the events or circumstances that form the basis for the claim occurred and the insurance was in force until the need for insurance ceased. When the dispute arises, no more than ten years must have passed since the events or circumstances that form the basis for the claim occurred.

Regarding prescription, see paragraph 126.

Where the insurance applies

70. The claim or suspicion of a crime must be based on something that has occurred within the scope of the insurance, see point 3.

Attorney or defense attorney

71. To obtain legal protection, you must hire a representative to whom you have given a written power of attorney for legal proceedings or a defense attorney. Your representative must be a lawyer or a legal assistant employed by a law firm.

You may also engage another suitable representative. In that case, you and we may request that Swedish Insurance provide an advisory opinion on the suitability of the representative.

72. We have the right to request arbitration from the Swedish Bar Association regarding the reasonableness of the fees and costs of the hired representative. We also have the right to request an examination of the reasonableness of the attorney's or legal assistant's fees and other cost claims from the Swedish Bar Association and the Swedish Insurance Association's Representative Costs Board.

If the representative is not a lawyer or an assistant lawyer at a law firm, the Swedish Insurance Board for Legal Protection Issues can review the reasonableness of the fee or cost compensation.

What costs are covered by the insurance 73. We only cover costs that are necessary and reasonable. We do not cover costs that you could have been compensated for by the state or your counterparty. Compensation may also be provided in disputes that are settled or for other reasons never come before the court.

The insurance covers

- attorney's and defense attorney's fees and costs
- cost of mediator appointed by the district court or court of appeal
- costs for necessary investigations ordered by your representative
- costs of evidence in trial and arbitration
- court costs
- legal costs that you have been ordered to pay to your counterparty
- legal costs that you have agreed to pay to your counterparty during the settlement provided that it is obvious that the court would have ordered you to pay higher legal costs if the dispute had been pursued.

Compensation is paid for reasonable time spent and at most according to the hourly rate set by the government for the legal aid area, or according to the criminal case rate. As a general rule, fees and other compensation are paid when the case has been finally reported to Folksam. However, payment on account may generally be made if there is reason to do so, taking into account the work that has been done in the case and the time remaining before compensation can be determined. Payment on account is not made more often than once every six months.

What costs are not covered by insurance?

74. The insurance does not cover •

the value of your own work, lost income, travel, living expenses or other expenses incurred you have had

- the cost of enforcing a judgment, decision or agreement
- additional costs resulting from you having hired multiple attorneys or defenders or changing attorneys or defense attorney unless there are special reasons
- compensation to arbitrators
- costs that, pending the examination of similar cases, shall not be reimbursed pursuant to Section 10, paragraph 9, of the Legal Aid Act.

If you have been awarded compensation in the form of damages that may also be considered to cover legal fees, you will not receive compensation from the insurance for these costs.

Maximum compensation amount

75. In each dispute or criminal case, the compensation may not exceed SEK 300,000.

A dispute is only considered to exist if:

- you and the other insured are on the same page
- several disputes concern the same matter
- the claims are based on substantially the same events and circumstances.

Thus, a dispute may exist even if the claims are not based on the same legal basis.

Deductibles

76. The deductible is 20 percent of the claim cost, but not less than SEK 1,800.

Addition

You have the option of making various additions to your insurance:

1. Supplement that gives you assistance service in certain emergency situations. See Folksam Assistance.
2. Supplement that gives you a rental car in the event of damage to your car or light truck. See Rental car insurance.

If you have Car Insurance Large, Folksam Assistance and Rental Car Insurance are included.

Do you have Light Truck Insurance? Large includes Rental Car Insurance.

Folksam Assistance

Insured persons

77. The owner or driver of the car or light truck who uses the vehicle with the owner's permission, as well as passengers in the vehicle, are entitled to service and compensation.

Area of validity

78. Folksam Assistance applies to events that occur in Sweden or in any of the countries where the ordinary passenger car or light truck insurance applies according to the General Insurance Terms and Conditions, section 3.

Period of validity

79. The validity period for Folksam Assistans is the same as for your regular passenger car or light truck insurance.

Events covered by the insurance

80. The insurance applies to downtime that prevents continued travel and is caused by:

- explosion, collision, rollover, run-over or other traffic accident
- fire
- machine breakdown or other technical failure that is unforeseen and not due to lack of maintenance
- lack of fuel, flat tire, loss of car keys or the car keys being locked in the car or light truck
- theft or seizure of the car or light truck and attempted theft or seizure of the vehicle.

Service request, damage report

81. You submit your request for service and report the damage incident directly to Folksam Emergency. You must then provide such information about the insurance and the car's registration number as Folksam Jour needs for its processing.

82. You must have consent from Folksam Emergency before you order service yourself unless circumstances prevent you from immediately contacting Folksam Emergency.

83. If you breach the provisions of clause 82 and the negligence causes damage to us, we may make deductions from the compensation. Deductions are made as is reasonable in the circumstances. In the event of slight negligence, no deductions are made.

Service and reimbursement of costs 84. In the case of on-site repair, towing and collection as described below, the insurance also applies to a trailer attached, such as a caravan.

On-site repair

85. We will arrange and pay for necessary repairs at the scene of the incident, if this is possible and does not cost more than the cost of towing. However, we will not pay for spare parts and workshop repairs.

We arrange and pay for the charging of the car or light truck's starter battery that may be necessary for continued driving.

In the event of downtime due to a discharged battery for propelling the car or light truck, we will pay for towing to the nearest charging point or for charging on site.

If the car or light truck keys are lost or locked in the vehicle, we are responsible for unlocking the lock, if this can be done on site. If a locksmith must be hired, we will pay the costs for this, but not more than the amount that a tow truck would have cost.

In the event of a shutdown due to a fuel shortage, we will pay for the transportation of new fuel. We do not pay the fuel costs.

In the event of downtime due to a puncture, we will help you change wheels. We will not pay for any additional costs, such as purchasing another tire.

Salvage

86. We will arrange and pay for any towing of the car or light truck that is necessary due to the incident that occurred, if the breakdown cannot be remedied on site as described above. Towing is done to the nearest suitable workshop.

Rental car, flight or train

87. In the event of a breakdown directly connected to the trip that prevents continued travel, theft or attack lasting longer than one hour, we will ensure that you get a rental car. We will reimburse the full daily and kilometre cost for a car or light truck of a maximum of the same size as the insured. The rental car is provided in direct connection with the interrupted trip and for a maximum of three days per claim. If a rental car cannot be arranged, we will arrange and pay for the transport of the car or

The driver and passengers of the light truck are transported to their home town or destination by train or, if the train journey takes more than six hours (more than ten hours abroad), by plane in economy class.

In the event of an incident occurring abroad, the following also applies: if the car or light truck is not repaired – or recovered after theft or other damage – at the time of the planned return trip, we will arrange and pay for transport of the car's driver and passengers to their home town. The transport will be carried out by the cheapest means of transport given the circumstances.

Picking up the car or light truck

88. When the vehicle is fully repaired – or recovered after theft or other misappropriation – we will arrange and pay for transport for one of the insured persons from their home or destination to collect the vehicle. If there are special reasons, we can arrange for the vehicle to be collected.

Hotel costs

89. If we are unable to provide a rental car or arrange transportation to your home or destination within 24 hours of the incident being reported to Folksam Assistans, we will arrange and pay for an overnight stay at a hotel for the driver and passengers. We will provide a rental car or transportation the following day.

Access to service

90. Folksam Assistans undertakes to provide service according to the insurance as quickly as possible, around the clock. In Sweden you will receive service within one hour, abroad within four hours. However, in some cases, circumstances beyond our control may mean that services cannot be provided within the time or in the form specified in the terms and conditions (for example, in the case of accommodation, car rental, train or air transport). Alternative solutions may then be necessary, but you will be compensated for the additional costs this may entail for you.

Limitations

91. We pay for

- a maximum of three injuries/incidents occurred during the same insurance year.

92. We do not pay for damages/incidents

- which arose during participation in a competition, training, demonstration, practice drive or similar use of the vehicle within a fenced area and other closed area or road intended for such use
- that happened while driving the vehicle at speed, such as street racing or track racing.
driving
- relating to costs for food, telephone calls or similar
- which causes costs that drivers and passengers would normally have to pay for, for example, accommodation, taxi, petrol, tolls, bridge fees and the like.
- for which the seller or other person is responsible under a warranty or similar undertaking. However, we will compensate if the insured shows that the person responsible does not remedy or pay.

Due diligence requirements

93. You may not drive a car or light truck if you

- does not have a valid driver's license
- may make you guilty of drunk driving or aggravated drunk driving.

You must follow the rules for practice driving. You must also ensure that the vehicle is not used when it has been issued with a driving ban.

94. If you breach the duty of care in clause 93, we may make a deduction from the compensation. The deduction is made in accordance with what is reasonable, taking into account the relationship of the situation with the damage that occurred, the intent or negligence that has occurred and the other circumstances. In serious cases, the deduction may result in you not receiving any compensation at all. We will not make a deduction if the negligence is minor. See also clause 120.

The insurance terminates

95. The insurance terminates

- when the vehicle is deregistered from the Road

Traffic Register • if the regular passenger car or light truck insurance is changed to cover only traffic insurance.

Deductibles

96. If you have Folksam Assistans, you will not have to pay the deductible in rescue incidents. This benefit is limited to three rescue incidents during the same insurance year.

Rental car insurance (included in Car Insurance Large for passenger cars and light trucks)

97. Rental car insurance covers compensation for a rental car if the insured car or light truck cannot be used due to damage that is compensable under the terms of the property protection or vehicle damage guarantee. In the case of mechanical and electronic damage, the insurance applies even if the age and mileage limits specified in point 30 have been exceeded. We compensate for interruptions of up to 7 days in these damages, a maximum of twice a year.

Rental car compensation is provided for the time that is reasonable to repair the car or light truck.

In the event of theft, compensation is also provided for the time the vehicle was missing. If it is not repaired/

is found, compensation will be provided instead for the time that is reasonable to obtain another equivalent car or light truck. In the case of glass damage, compensation will only be provided if the interruption is longer than one day. If the interruption is longer than one day, we will provide rental car or interruption compensation from the first day.

Compensation is paid from the day the interruption occurred and for a maximum of 65 days. We pay 75 percent of the daily and per-kilometer cost for renting a car or light truck from a car rental company that we have designated. You pay the remaining 25 percent. Instead of a rental car, you can receive interruption compensation of SEK 200/day. You can switch between rental car *and* interruption compensation if you wish. In the event of damage that occurs abroad, we pay 100 percent of the daily and per-kilometer cost, provided that the rental car is taken out and used abroad in connection with the damage that occurs. The rental car must be in the same size class as the insured car or light truck in terms of space.

You have the right to choose a car or light truck that meets our safety and environmental requirements.

You must help to ensure that the interruption is as short as possible.

Additional costs for deductible reduction, fuel, ferry tickets and the like, which relate to the rental car, are paid by you yourself.

In the event of any comprehensive damage to the rental car, we will pay the portion of the rental car's deductible/guarantee deductible that exceeds the deductible/guarantee deductible on your own car. To receive this deductible reduction, you must use the rental company we designate and the maximum compensation is SEK 10,000.

In the event of damage abroad, the return journey to your home town, if possible, should be arranged so that you can collect and drive your car or light truck home yourself. If you have to use the rental car for the return journey, we will pay the rental car cost until you return home.

Due diligence requirements

98. You may not drive a car or light truck if you

- does not have a valid driver's license
- may make you guilty of drunk driving or aggravated drunk driving.

You must follow the rules for practice driving. You must also ensure that the vehicle is not used when it has been issued with a driving ban.

99. If you breach the duty of care in clause 98, we may make a deduction from the compensation. The deduction will be made in accordance with what is reasonable, taking into account the relationship of the situation to the damage that occurred, the intent or negligence that has occurred and the other circumstances.

In serious cases, the deduction may result in you not receiving any compensation at all.

We do not make any deductions if the negligence is minor, see also point 120.

Limitations

100. We make deductions from the rental car compensation for interruption or downtime compensation that you are entitled to receive from other insurance for the same damage.

We do not pay for damage for which the seller or others are responsible under a warranty or similar undertaking. However, we will compensate if the insured proves that the person responsible does not remedy or pay.

The insurance ends

101. The insurance terminates in the following cases:

- when the vehicle is removed from the Road Traffic Register
- if regular passenger car or light truck insurance is changed to cover only traffic insurance.

Deductibles

102. Rental car insurance is exempt from deductibles. See point 97 regarding deductibles.

General provisions

103. The insurance is subject to the insurance terms and conditions, insurance certificate and the Insurance Contracts Act.

Claim registration

The company has the right to register reported damages in connection with this insurance in a common claims register (GSR) for the insurance industry.

The agreement and the premium

104. The insurance is valid from the date stated in the insurance notification. If the insurance is taken out on the same day as it is to take effect, it is valid from the time it was taken out. The insurance does not apply to damage or defects that occurred or arose before the insurance took effect.

105. The insurance is automatically renewed for one year at a time unless you as the policyholder or us cancel it. The renewed insurance begins when the previous insurance expires. If you instead want to cancel the insurance from the main due date, you do not need to state any specific reason. Cancellation by us when you request renewal, however, requires specific reasons according to the Insurance Contracts Act. If you take out insurance for your car or light truck with another insurance company and do not pay the premium to Folksam, the insurance will not be renewed.

106. You may terminate the insurance during the insurance period if there is a specific reason specified in the Insurance Contracts Act, for example if the need for the insurance ceases or a similar circumstance occurs. You may also terminate the insurance in the event of damage to terminate within 14 days. From our side, we may terminate the insurance during the insurance period only if you or the insured person has grossly violated your obligations towards us or if there are exceptional reasons.

If the insurance is cancelled by you or us, you will receive back the part of the premium to which you are entitled.

107. The insurance and the premium are based on the information you have provided us. When calculating the premium, we take into account the following factors, among others: what car you have and how old it is, how many miles you drive per year, what deductible for vehicle damage you choose and whether you suffered damage that results in a payment from traffic or vehicle damage insurance.

We have the right to request information from you that affects your premium. If we do not receive the requested information, the premium will be calculated based on rules predetermined by us.

108. Duty to provide information

When you wish to take out, extend or renew insurance, you must, at our request, provide information that may be relevant to the question of whether the insurance should be notified. You must give correct and complete answers to our questions.

If you realize that we have previously received incorrect or incomplete information about circumstances of obvious importance for the risk assessment, you must correct the information without undue delay.

109. Risk increase

You must notify us without undue delay if a circumstance specified in the agreement and which is of material importance for the risk changes.

110. If you have intentionally or negligently neglected your duty to provide information under section 108 or your duty to notify under section 109, the compensation may be reduced in respect of each insured person as is reasonable, taking into account the significance of the situation for our assessment of the risk, the intent or negligence that has occurred and other circumstances.

111. We can normally only make changes to the premium and other terms and conditions in connection with the renewal of the insurance. If we want to make such a change, we will notify you at the latest when we send you the premium claim so that you have time to decide whether you want to accept the change or let the insurance expire.

We have the right to make any premium changes that are due to a changed risk situation, such as a change of car, change of address or increase in annual mileage, immediately.

112. Premiums for newly taken out insurance must be paid within 14 days of the date we sent you the premium claim. The same applies to additional premiums due to changes to the insurance during the insurance period.

Premium for renewed insurance does not need to be paid earlier than one month from the date we sent you the premium demand. However, if the premium period is no more than one month, the premium must be paid on the first day of the period.

113. If the premium is not paid on time and the delay is not insignificant, we will write and terminate the insurance to expire 14 days later. At the same time, we remind you that if you pay within 14 days, the insurance will continue to be valid. If it is a question of unpaid additional premium, we may recalculate the insurance period for the amended insurance taking into account the premium that you previously paid.

114. If you pay the premium after the insurance has terminated due to non-payment, we will consider that you have requested new insurance from the day after the premium was paid. We will notify you within 14 days if we do not want to grant new insurance.

115. If you have been prevented from paying your premium on time due to a serious illness, deprivation of liberty, or failure to receive your salary or pension from your main employment or similar obstacles, the insurance will still continue to apply. However, it will cease if the premium is not paid within one week of the obstacle having ceased and in any case when three months have passed from the day the premium should have been paid.

116. Should we for any reason terminate the insurance but you receive our letter too late due to circumstances beyond your control, the insurance will not terminate until one week after you receive the letter. In any case, it will terminate when three months have passed from the date of dispatch, and this applies even if the letter does not arrive.

117. We may assign a claim for unpaid insurance premium to the Swedish Motor Insurance Association.

Double insurance

118. If the same interest has been insured against the same peril with several companies, each company is liable to the insured as if that company alone had granted insurance.

However, you are not entitled to more compensation from the companies than the total amount of the damage. If the sum of the liability amounts is greater than the damage, the liability is divided between the companies according to the ratio between the liability amounts.

Money laundering

119. Insurance compensation is not paid if it can reasonably be assumed that a payment would entail a risk of violation of money laundering legislation.

Deductions from compensation

120.

Due diligence requirements

The insurance provides you with extensive protection in the event of damage. However, you must take steps to ensure that damage does not occur. The terms and conditions contain some requirements for care that you must follow in order to avoid a deduction from the compensation. How we calculate the deduction is stated in the respective care requirements in the terms and conditions.

Consideration is given to the significance of the procedure for the damage or its extent and to the other circumstances.

Inducing insurance claims

The insurance does not apply to you if you have caused the damage intentionally, or to the extent that you have intentionally worsened the consequences of an injury.

If the damage was caused or its consequences were aggravated by gross negligence on your part, we may make a deduction from the compensation. The same applies if you must otherwise be assumed to have acted or failed to act with knowledge that this entailed a significant risk of the damage occurring. The deduction may, in serious cases, result in you not receiving any compensation at all.

Rescue duty

When a loss occurs, it is the responsibility of each insured to limit its extent to the best of their ability, for example, alerting the fire department in the event of a fire and attempting to save threatened property to the extent that this can be done safely. Reasonable costs for measures to prevent the consequences of a loss that has occurred will be compensated by us regardless of whether the measure was successful or not, to the extent that you are not entitled to compensation from another source.

This also applies if it is a matter of preventing damage that is immediately threatening to occur. However, we do not reimburse other preventive measures, such as the cost of changing locks if the vehicle key is lost.

If you have intentionally disregarded your obligations to take rescue measures, we may make a deduction from the compensation as is reasonable in the circumstances. The same applies if you have disregarded your obligations with knowledge that there was a significant risk of damage occurring or otherwise through gross negligence.

Identification with the insured for the purposes of paragraph 120 including any of the due diligence requirements

Your actions are considered equivalent to the actions of anyone who has control of the insured property with your consent. If there are exceptional reasons, this provision does not apply.

Exceptions to provisions on deductions under paragraphs 110 and 120 and in the event of a breach of any due diligence requirement

121. We do not make any deductions at

- slight negligence
- actions by someone who was seriously mentally disturbed or who was under twelve years of age.
- action intended to prevent damage to persons or property in such an emergency that the action was justifiable.

Reclaim

122. To the same extent that we have paid compensation for damage, we assume your right to claim compensation from the person responsible for the damage.

For motor vehicle insurance, to the same extent that we have paid compensation, we have the right, according to the Traffic Injuries Act, to demand compensation from the person who caused the damage intentionally or through gross negligence or through negligence in combination with drunk driving or gross drunk driving.

In addition, according to the Traffic Damage Act, we can file a claim against the owner of the railway or tramway and against the person responsible for the damage according to the Product Liability Act.

If we advance money or provide a payment guarantee, you must repay it if it turns out that you were not entitled to the compensation from the insurance.

War damage

123. The insurance does not apply to damage related to war, war-like events, civil war, revolution, riot or insurrection.

If the damage occurred outside Sweden, we do not apply the exception for war damage within three months of the outbreak of the unrest. However, the prerequisite for the insurance to apply is that the car or light truck was in the affected area at the time of the outbreak and continuously until on the day the damage occurred. In addition, you must not have taken part in the unrest or taken any other position with them as a reporter or the like, nor have you allowed anyone else to use the vehicle for such purposes. Under the same conditions, we also pay for the loss of a car or light truck that has been confiscated or must be left behind during evacuation or detention.

Nuclear damage and more

124. Compensation is not provided for damage whose occurrence or extent is related to atomic-nuclear processes.

The insurance also does not apply to damage caused by the spread of biological, chemical or nuclear substances in connection with an act of terrorism.

An act of terrorism refers to a harmful act that is punishable where it is committed or where the damage occurs, and which appears to be carried out with the aim of • seriously intimidating a population

- improperly compel public bodies or an international organisation to carry out or refrain from carrying out a particular action or
- seriously destabilize or destroy the fundamental political, constitutional, economic or social structures of a country or an international organization.

Dam break

125. The insurance does not apply to damage whose occurrence or extent is directly or indirectly related to a dam break.

Limitation

126. You lose your right to insurance compensation or other insurance coverage if you do not bring an action against us within ten years from the time when the situation that entitles you to such coverage under the insurance contract occurred.

However, if you have submitted your claim to us within the time specified here, you always have six months to bring an action against us, calculated from the time we have declared that we have taken a final position on the claim.

Traffic Injury Act

You lose your right to compensation if you do not bring an action against us within ten years of the damage. However, if you request a review pursuant to Chapter 5, Section 5 of the Swedish Torts Act, the action may be brought within three years of the time when the circumstances that form the basis for the request for a review occurred. If you want compensation and have reported the damage within ten years or requested a review in accordance with Chapter 5, Section 5 of the Swedish Torts Act, the time limit for bringing an action is always at least six months from the date on which we have declared that we have taken a final position on the claim. If the action is not brought in due time, the right to compensation is lost. The action may only be brought later than ten years if there are exceptional reasons. In the assessment, special consideration shall be given to whether you have been prevented from submitting the claim in time.

Other Information

Processing of personal data

127. Folksam protects your personal privacy and wants you to feel secure in how we handle your information. When you enter into an insurance contract with Folksam, we process your personal information mainly to fulfill our obligations under the insurance contract and to comply with the laws and regulations that apply to our operations. We also process your information when we have a legitimate interest in processing your personal information, for example to provide you with relevant information and marketing and to develop our products and services.

How we process your personal data depends on which products you have with us.

At folksam.se/personuppgifter you will find more information about how we process your personal data. There you can read, among other things, about what personal data we process, for what purposes we process personal data, which parties we share personal data with and how you exercise your rights. You can also contact our customer service at 0771-950 950.

Refund Folksam Goods

128. As a customer of Folksam Sak, you may be entitled to a rebate. The right to a rebate and the terms and conditions for a rebate are decided by the board of Folksam Sak.

You cannot get a refund if the insurance is mandatory or if you can get a refund in another way.

A prerequisite for payment of a decided bonus is that it (together with bonuses from other bonus-based insurance policies in Folksam Sak) amounts to SEK 100.

If your bonus is less than 100 SEK, it will be saved until payment can be made. However, if you are not awarded a new bonus within 3 years, you will lose the right to the saved bonus.

Refunds can also be saved if payment has not been made for other reasons – but for a maximum of three years. If payment has not been made within three years, you lose the right to such refunds.

If damage occurs

129. Report what happened to us as soon as possible.

130. Theft, seizure of means of transport, vandalism, collision with animals or damage caused by another unknown motor vehicle must be reported to the police in the country where the incident occurred.

For our assessment of compensation, we depend, among other things, on what is stated in the police report. You must therefore participate in the police investigation by providing all the information you have. Please provide us with a copy of the police report.

131. Damage that has occurred when the car or light truck has been transported by another means of transport must also be reported to the transport company.

132. In order for us to assess your claim for compensation, you must provide us with the information and documents we need, such as purchase receipts, medical certificates, and so on.

You are also obliged to participate in the inspection that we wish to carry out due to the damage that has occurred.

133. If you violate the provisions of paragraphs 129–132 and the negligence causes damage to us, we may make deductions from the compensation. Deductions are made as is reasonable in the circumstances. In the case of slight negligence, no deductions are made.

134. If you or anyone else who is claiming compensation for damage intentionally or through gross negligence provides incorrect information, conceals or hides anything of importance for the assessment of the right to compensation, we may make deductions according to what is reasonable in the circumstances. If we have already paid compensation, we may reclaim it in whole or in part.

135. Repairs must be approved in advance by us. Our instructions must be followed when choosing a repairer, tow truck, repair method and material. Folksam takes into account any inconveniences, such as increased costs in the form of travel costs or unnecessarily long waiting times that you may experience. You must have permission from us or Folksam Jour before you order repairs yourself unless circumstances prevent you from contacting us or Folksam Jour.

Certain environmental commitments apply to the insurance. These are set out in points 53 and 97.

As the owner of the car or light truck, you must, with our consent, order repairs and approve or complain about the work performed.

Refund for advance payments

136. If we advance money or provide a payment guarantee for any type of costs, you must pay it back if it turns out that you were not entitled to compensation from the insurance.

Late payment interest

137. We strive to pay damages as soon as possible and in cases where the investigation is time-consuming, we may pay compensation in advance. If, despite having done what is incumbent on you, it takes more than a month before you receive compensation, you will receive interest on the amount to which you are entitled. However, the time for payment may be postponed in certain situations as specified in the Insurance Contracts Act.

The default interest is calculated according to Section 6 of the Interest Act.

Force majeure

138. If an investigation of an insurance claim or payment of an insurance amount is delayed due to force majeure, i.e. an event beyond Folksam's control, Folksam cannot be held liable for the delay. This is provided that we have done what can reasonably be requested to limit the damages that may arise.

Examples of such events that may constitute force majeure are changed legislation, government action, war, war-like events, terrorist acts, natural disasters, fire, strikes, blockades and boycotts or other similar circumstances. Regarding strikes, blockades and boycotts, the above applies even if Folksam is the subject of or takes such conflict action. Folksam is also not responsible for damage caused by faults in telephone networks or other technical equipment that does not belong to us.

If we couldn't agree

We want you to be satisfied.

It is important that there is a well-functioning complaints management system so that you as a customer can have your interests met. Good complaint management gives Folksam an opportunity to identify problems and take preventive measures.

Please contact us at Folksam first.

Misunderstandings or disagreements can often be resolved easily. Therefore, first contact the person who handled your case. If you are still not satisfied, you can contact the person handling the case's immediate manager.

If the disagreement concerns the valuation of damaged property, you can request an opinion from an impartial valuer.

Customer Ombudsman Folksam

As a customer of Folksam, you have the opportunity to have your case reviewed by the Customer Ombudsman, who is independent of Folksam's organization. The Customer Ombudsman reviews most cases concerning insurance, claims and savings. If you are not satisfied with Folksam's final decision, the Customer Ombudsman can make an impartial assessment of your case.

After Folksam has made its final decision, you have one year to file a complaint with the Customer Ombudsman, provided that the statute of limitations has not expired in accordance with what is stated below in the section "Don't wait too long".

Address: Customer Ombudsman Folksam, 106 60 Stockholm
phone: 0771-65 52 53

e-mail: customer.ombudsman@folksam.se
web: folksam.se

Insurance Committee

If you are covered by group insurance, it may be possible to have your case reviewed by an insurance committee. Please contact the Customer Ombudsman in the first instance about your case and for more information about this procedure.

Joint committees

If you have insurance that is based on a collective agreement between the social partners, you can often have your case heard by a joint committee. For information about which joint committee applies to you, contact Folksam's customer service or see Folksam's website.

Industry-wide committees

In some cases, you can have your case heard by one of the following boards:

Traffic Injury Board

The Traffic Injury Compensation Board is independent of the insurance companies and works for uniform and fair personal injury settlement within traffic insurance. Certain compensation issues are mandatory and must always be examined by the board. Folksam will help you in connection with the mandatory examination.

There are also other issues where we are not obliged to obtain an opinion. In these issues, you can request a review from the Swedish Traffic Injury Board via a special form that can be found at

Address: Traffic Injuries Board
Box 24048, 104 50 Stockholm
or on the web: trafikskadenamnden.se

Liability Insurance Personal Injury Board

The Personal Injury Compensation Board of the Swedish Liability Insurance examines cases for people who have been injured and are entitled to compensation for their injuries. It works in much the same way as the Traffic Injury Compensation Board does for traffic injuries. Certain compensation issues must always be referred to the board for an opinion. Please submit your requests to Folksam if you would like the board to give an opinion on issues where we are not obliged to obtain an opinion.

Patient Compensation Board

The Patient Compensation Board is an advisory board to insurance companies. At the request of a patient, healthcare provider, insurance company or court, the board shall give its opinion on compensation matters relating to patient insurance.

Address: Patient Injuries Board, Box 24127, 104 51 Stockholm

Personal Insurance Board

The Personal Insurance Board hears disputes between the insured (individual consumer) and the insurance company in matters relating to life, health and accident insurance, in cases where medical assessments are required.

Committee for Legal Protection Issues

The Board for Legal Protection Issues reviews, at the request of the insured, the scope of legal protection insurance, questions about compensation claims within legal protection insurance and motor liability insurance and questions about review of the suitability of representatives within legal protection insurance and motor liability insurance. You can request a review yourself from the Personal Insurance Board and the Board for Legal Protection Issues via a special form available from the Swedish Insurance Boards.

Address: Swedish Insurance Board, Box 24067, 104 50 Stockholm
phone: 08-52278720
web: forsakringsnamnder.se

The report to the Committee for Legal Protection Issues must be made no later than one year after you have submitted your complaint to Folksam.

The General Complaints Board (ARN)

ARN is a government agency that hears most disputes about private individuals' insurance policies, but not disputes involving amounts lower than SEK 2,000 or medical assessments and generally not cases involving mandatory group insurance.

ARN also does not hear insurance disputes concerning insurance that are based on collective agreements between the social partners, if the agreement provides for a special dispute resolution procedure. This usually takes place through a review by a panel of parties. There are more exceptions and they are stated on ARN's website. The report to ARN must have been received within one year of the date you first submitted your complaint to Folksam. If more than one year has passed, you always have the opportunity to submit a report within two months after the final decision of the Folksam Customer Ombudsman.

Address: ARN, Box 174, 101 23 Stockholm
phone: 08-508 860 00
email: arn@arn.se
web: arn.se

General Court

You can have your dispute with Folksam heard by the district court. If you have legal expenses insurance, it may reimburse part of the legal costs.

Consumers' Insurance Agency

The insurance agency provides free information and advice on insurance matters, but does not review individual insurance disputes.

Address: Consumer Insurance Agency, Box 24215, 104 51 Stockholm
phone: 0200-22 58 00
web: konsumenternas.se

Municipal consumer guidance

You can also get information and advice from your local municipality's consumer advisor.

Don't wait too long.

If you wait too long to have your dispute heard, you may lose your right to compensation (prescription). If you want to avoid prescription, you must file a lawsuit with the district court within ten years from the time of the damage/time when the event occurred/occurred that, according to the insurance contract, entitles you to insurance compensation or other insurance coverage.

If that date occurred before January 1, 2015, you must generally file a lawsuit within three years of the date you became aware that the claim could be asserted.

If an insurance contract entitles you to compensation for different compensation items or different damages at different times, parts of the claim may be time-barred under older provisions and other parts under new provisions.

If you, as a private individual, have reported your damage or claim before the expiry of the limitation period, you always have six months to file a lawsuit from the date you received the final decision from Folksam or the Customer Ombudsman.

Car insurance

Insurance product fact sheet

Insurer: Folksam mutual non-life insurance, corporate registration number 502006-1619, Sweden

Product: Car insurance

This fact sheet only provides a brief description of the insurance. It is the insurance certificate together with the full insurance terms and conditions that constitute the agreement between us.

What type of insurance is this?

The insurance applies to passenger cars and can be taken out by private individuals and legal entities. Motor third party liability insurance is mandatory by law for vehicles in traffic. In addition to Motor third party liability insurance, you can choose between Half Insurance, Half Insurance Large, Full Insurance or Full Insurance Large, as well as additional insurance.

What is included in the insurance?

For vehicles used in traffic

Motor vehicle insurance

Mandatory insurance for all vehicles used in traffic. Covers damages up to SEK 300 million.

- ✓ Personal injury
- ✓ Damage that you cause with your vehicle to someone else's vehicle and/or or property
- ✓ Crisis therapy - 10 treatment sessions

Semi-insurance

In addition to Motor Vehicle Insurance, the following is also included:

- Fire insurance
- Glass pane insurance
- Theft insurance
- Machinery and electronics damage insurance - applies to vehicles up to eight years old and 15,000 kilometers. For batteries and electric power sources in electric, hybrid or plug-in hybrid vehicles, 20,000 kilometers applies.
- Rescue insurance
- Legal expenses insurance

Semi-insurance Large

In addition to Motor and Semi-Compliance Insurance, the following is also included:

- Damage to the passenger compartment - maximum compensation is SEK 65,000
- Misfuelling
- Key loss - maximum compensation is SEK 25,000
- Rental car insurance - maximum 65 days. Folksam pays 75% of the daily and kilometre cost.
- Folksam Assistance
- Machinery and electronics damage insurance - applies to vehicles up to 10 years or 15,000 kilometers

Comprehensive insurance

In addition to Motor and Semi-Compliance Insurance, the following is also included:

- Vehicle damage insurance.

What is included in the insurance?

Comprehensive insurance Large

In addition to Traffic, Half and Full Insurance, the following is also included:

- Damage to the passenger compartment - maximum compensation is SEK 65,000
- Misfuelling
- Key loss - maximum compensation is SEK 25,000
- Rental car insurance - maximum 65 days. Folksam pays 75% of the daily and kilometer cost.
- Folksam Assistance
- Machinery and electronics damage insurance - applies to vehicles up to 10 years or 15,000 kilometers

Supplementary insurances

- Rental car insurance
- Folksam Assistance

For vehicles not used in traffic

Layoff insurance

- ✓ Crisis therapy
- ✓ Fire insurance
- ✓ Glass pane insurance
- ✓ Theft insurance
- ✓ Legal expenses insurance
- ✓ Limited carriage damage

What is not included in the insurance?

Below we describe some examples of what is not covered by your insurance, see the full terms and conditions for more information.

- ✗ Things you carry in the vehicle that are not vehicle accessories, such as a mobile phone, iPad, luggage or GPS
- ✗ That which is not the vehicle's standard design or which is not normal equipment for the vehicle
- ✗ Damage incurred to the vehicle during competition or similar use within a fenced or closed area, as well as during speed driving such as street racing.

Are there any limitations to what the insurance covers?

Below we describe some examples of limitations in your insurance.

All due diligence requirements, reduction rules and other restrictions are described in the complete terms and conditions.

- ! **Intention and gross negligence:** If you have caused damage or worsened the consequences of damage through intent, the insurance does not apply. If you instead caused damage or aggravated the consequences of damage through gross negligence, we may make deductions from the compensation.
- ! **Double insurance:** If the same interest has been insured against the same risk with several insurance companies, each insurance company is liable to the insured as if the insurance company alone had granted insurance. However, you are not entitled to higher compensation from the insurance companies than what is collectively equivalent to the damage.
- ! **Duty to rescue:** When damage occurs or is feared to occur, it is the responsibility of each insured to limit its extent to the best of their ability. If you have intentionally disregarded your obligations to take rescue measures, the compensation may be reduced as is reasonable in the circumstances.
- ! **Force majeure:** If an investigation of an insured event or payment of an insurance amount is delayed due to force majeure, i.e. an event beyond Folksam's control, Folksam cannot be held liable for the delay. This is provided that we have done what can reasonably be requested to limit the damage that may arise. Examples of such force majeure events are changed legislation, government action, war, war-like events, terrorist acts, natural disasters, fire, strike, blockade, boycott or other similar circumstances. Folksam is also not liable for damage caused by faults in telephone networks or other technical equipment that does not belong to us. Regarding strikes, blockades and boycotts, the above applies even if Folksam is the subject of or takes such conflict action.

- ! **Law, warranty, other commitment:** The insurance does not apply to certain cases of damage for which the supplier or another person is liable under the Consumer Purchase or Consumer Services Act, the Sales Act, the Vehicle Emissions Act, new or used car warranties or assistance.
- ! **Reduction rules and due diligence requirements:** The insurance provides you with extensive protection in the event of damage, but you must take steps to ensure that damage does not occur. The full terms and conditions contain certain due diligence requirements that you must follow in order not to risk deductions from compensation.
- ! **Cars older than 30 years:** The insurance applies with a maximum compensation amount of SEK 300,000 in property protection.
- ! **Who the insurance applies to:** The insurance only concerns your own legal financial interest as the policyholder, owner and main user of the insured property. Should it turn out that someone other than you owns the vehicle, the property protection does not apply and no compensation can be paid in the event of damage.

Where does the insurance apply?

- ✓ The insurance is valid in the EEA countries and in other countries that are connected to the green card system. The insurance is also valid during transport between these countries.
- ✓ For decommissioned vehicles, the insurance only applies in Sweden.
- ✓ Motor vehicle insurance is always valid worldwide according to the Motor Vehicle Accident Act (TSL) for damage caused to a Swedish citizen or a person residing in Sweden as a result of driving a Swedish-registered vehicle.

What are my obligations?

You must provide us with correct and complete information, otherwise you risk being left completely or partially without insurance coverage or that we are exempt from liability in the event of damage according to the provisions of the Insurance Contracts Act and general Swedish law in general. The premium paid will not be refunded in such a case.

When and how should I pay?

You pay your insurance to us via Bankgiro. You can choose between e- or paper invoice and direct debit. You can pay for the whole year, half-yearly or quarterly. If you choose direct debit, you can also choose to pay the insurance premium monthly. All payment options are free of charge. The payment method and period you have chosen are stated in your insurance statement.

The insurance premium must be paid within 14 days from the date we sent the invoice or premium notification. If the premium is not paid on time, we will cancel the insurance, which will cease to be valid 14 days after the date of cancellation, unless the premium is paid within this time.

When does the insurance start and end?

The insurance policy starts and ends when it is valid. The contract period is normally one year.

How can I cancel the insurance?

You can cancel the insurance at any time during the contract period. The insurance will then cease to be valid at the end of the contract period. If your need for insurance has ceased, for example if you have sold the car, you can cancel the insurance and it will then cease to be valid immediately.

Claim registration

The company uses a common claims reporting register (GSR) for the insurance industry. This register contains certain information about the claim and information about who has requested compensation. This means that the company finds out whether you have previously reported any claim to another insurance company, occupational pension company or authority that handles similar claims. The purpose of the GSR is to provide insurance companies, occupational pension companies and authorities that handle similar claims with a basis for identifying unclear insurance cases and claims. This allows companies and authorities to prevent the payment of compensation based on incorrect information as well as incorrect payment from multiple insurance companies for the same claim. The data can also be used in de-identified or pseudonymized form for statistical purposes and analyses at an aggregate level.

The data controller for GSR is the Swedish Claims Register (GSR). AB, Box 24171, 104 51 Stockholm. See www.gsr.se for more information about the processing of data contained in the register.

Pre- and post-purchase information

Insurance for passenger cars and light trucks

Valid from 1 July 2025

Remember – you can find complete terms and conditions for your insurance at folksam.se or on My Pages.

Car insurance for passenger cars and light trucks

This is a brief summary of the terms and conditions and the compensation you can receive from your insurance. As a customer, you have the right to receive this information and it is important that you read it before you make a decision. The full terms and conditions that apply from 1 July 2025 can be found on folksam.se and on Mina sidor or obtained from our customer service.

What insurance do you need?

Motor vehicle insurance

Mandatory protection

Motor third party insurance is mandatory for all cars and light trucks used in traffic. It provides compensation to drivers, passengers and others who are injured in a traffic accident. If you have had a collision, it also covers the damage you have caused to the other vehicle. However, only the other party can receive compensation for property damage from motor third party insurance.

Car insurance for passenger cars and light trucks, half or full Half insurance (without vehicle damage insurance)

Protection for vehicles in the event of fire, glass damage, theft or burglary. In some cases, you will also receive compensation if the engine or electronics in the vehicle break down. Machinery and electronics damage insurance applies to passenger cars that are younger than eight years old and have not driven more than 15,000 kilometers. For light trucks that are younger than ten years old and have not driven more than 15,000 kilometers. This also includes legal expenses and rescue insurance.

Comprehensive insurance (with vehicle damage insurance)

You get full coverage in the semi-insurance and also vehicle damage insurance. This is protection against damage that occurs to your vehicle, for example in a traffic accident where you are at fault or if your vehicle is damaged by someone else.

Car insurance Large for passenger cars and light trucks

Car insurance Large for passenger cars and light trucks can be taken out with full or half insurance (with or without vehicle damage insurance) and gives you full coverage in the traffic and half insurance, as well as the mechanical and electronic damage insurance that applies to passenger cars that are younger than ten years and have not driven more than 15,000 kilometers. You have extra protection in the event of key loss, damage to the vehicle's interior and cargo space, and misfueling. If you have our Car insurance Large, Folksam Assistance and Rental Car are included. If you have Light truck insurance Large, Rental Car is included.

Supplementary insurance Folksam

Assistance (included in Large Car Insurance)

With Folksam Assistance, you get quick help to get on your way if you get stuck on the road, even when you are outside Sweden.

Rental car (included in Large Car Insurance for passenger cars and light trucks)

If your vehicle is in the workshop after compensable damage, you will receive compensation for a rental car for up to 65 days.

Motor vehicle insurance – mandatory coverage

A mandatory protection for you, your fellow passengers and everyone else in traffic.

Motor vehicle insurance	
We replace	We do not replace
Personal injuries – if you, your passengers or others in traffic are injured. Damage that you cause to someone else's vehicle with your car or light truck. Damage that you cause with your car or light truck to someone else's property, such as a fence or house.	Damage to your car or light truck or property.
Deductibles	SEK 1,000 if you caused the accident, that is, were at fault. SEK 1,000 extra if the driver was under 24 years old when the accident occurred. 10 percent of a price base amount* if the vehicle was driven by someone who does not have a valid driver's license, is drunk or careless, or if rules for practice driving were not followed. 10 percent of a price base amount* if you cannot show who drove the vehicle in the event of a traffic accident. *The price base amount is set by the government each year. For 2025 it is 58,800 SEK.
Facts about motor insurance	Anyone who owns a car or light truck must have motor vehicle insurance if the vehicle is to be used in traffic. It is the Traffic Injuries Act that describes how traffic insurance applies. It is reassuring for everyone in traffic to know that the injured person will receive help and compensation.

Car insurance for passenger cars and light trucks without vehicle damage insurance (semi-insurance)

Glass damage	
We replace	We do not replace
Glass panes that are cracked or shattered, for example by stone chips.	Damage to the glass roof or sunroof. This is covered by vehicle damage insurance. Glass that breaks when you crash or drive off the road. It is covered by vehicle damage insurance.
Deductibles If the glass on the car or light truck can be repaired: 0 SEK. If the glass is replaced: SEK 1,800 (privately owned). If the glass is replaced: SEK 4,500 (legal entity).	
Theft	
We replace	We do not replace
Damage that occurs if someone steals or attempts to steal all or part of your vehicle. Applies regardless of whether the perpetrator intended to keep, sell or only temporarily use the vehicle. Factory-fitted equipment without any amount limit.	If things are stolen from the vehicle, you may be able to receive compensation from your home insurance. If someone in your household, or someone else who has access to the vehicle, takes or borrows it without permission. Due diligence requirements Parts that are not permanently mounted must be locked in the vehicle. Parts or equipment that are not permanently installed should be stored locked in a room that only you have access to. The vehicle must be locked with a steering wheel or gear lock if it is not in a locked garage or at a workshop for repair or service. The key must not be left in or near the vehicle, and must not be marked with the registration number, name or address. If the vehicle has an immobilizer, you should decode a lost key.
Deductibles 1,800 SEK (privately owned) SEK 4,500 (legal entity)	
Mechanical and electronic damage	
We replace	We do not replace
Damage or faults to, for example, the engine, cooling system, gearbox, power transmission, electronics, brakes and steering, hybrid and electric car batteries. Damage or malfunction of safety and driver assistance systems.	Damage to passenger cars that are older than eight years and have traveled more than 15,000 kilometers. Damage to light trucks that are older than 10 years and have traveled more than 15,000 kilometers, the insurance therefore ceases as soon as any of the limits are crossed. For batteries and power sources for electric cars, hybrid cars and plug-in hybrid cars, the limit applies to cars and light trucks that have been driven a maximum of 20,000 kilometers. Due diligence requirements Follow the manufacturer's regulations regarding service, maintenance and repairs so that they are carried out in a professional manner. Make sure you have enough antifreeze in the cooling system and use the correct fuel. Do not use components that are intended for tuning or that are not adapted to the vehicle.
Deductibles SEK 1,800 (privately owned), SEK 4,500 (legal entity) when the car has not been driven over 10,000 kilometers. SEK 3,500 (privately owned), SEK 6,500 (legal entity) when the car has been driven over 10,000 kilometers. SEK 1,800 (privately owned), SEK 4,500 (legal entity) when the light truck has not been driven more than 10,000 kilometers. SEK 3,500 (privately owned), SEK 6,500 (legal entity) when the light truck has been driven over 10,000 kilometers.	

Car insurance for passenger cars and light trucks without vehicle damage insurance (semi-insurance), continued

Fire	
We replace	We do not replace
If your vehicle is damaged by fire, lightning or explosion. (A flat tire is not defined as an explosion.) If your vehicle is damaged by a fire that has been started by an outsider (third party). That is, someone other than yourself and who has acted without your consent. Factory-fitted technical equipment, such as information and communication systems for data and navigation, is reimbursed without any limit on the amount, provided that it is permanently fitted and designed to be used exclusively in the vehicle.	If your vehicle starts to catch fire when you crash or drive off the road - then it is the vehicle damage insurance that compensates. We do not replace explosive goods that are not vehicle accessories. Due diligence requirements Electrical cables, fuel lines and components must be professionally installed. Only use approved devices if the vehicle is to be heated or dried.
Deductibles	1,800 SEK (privately owned) SEK 4,500 (legal entity)
Rescue	
We replace	We do not replace
Passenger and vehicle transport in connection with certain emergency situations, for example if your vehicle is stolen, damaged or breaks down. Towing to a workshop or in some cases transport home. In some cases, repatriation of the damaged vehicle even if it is abroad. Necessary costs for the driver and passengers to get home. Or if it doesn't get more expensive, where you were going.	If the reason for the stop is that the fuel has run out. Costs of getting home if the driver or passenger suffers an accident, acute illness or dies. However, the insurance covers the journey to the vehicle's home location for passengers who cannot continue the journey because the driver has suffered an accident, acute illness or has died. Due diligence requirements Make sure that the vehicle is not driven if it has been banned from driving by the police or other authorized inspector.
Deductibles	SEK 1,800 (privately owned), SEK 4,500 (legal entity). SEK 0 if you have Folksam Assistans supplementary insurance.

Car insurance for passenger cars and light trucks with vehicle damage insurance (full insurance)

By supplementing with vehicle damage insurance, your car or light truck will be fully insured, even after the vehicle's vehicle damage warranty has expired. This means you can still receive compensation for damage to your car or light truck if, for example, you crash or drive into a ditch.

Protection in half insurance plus vehicle damage insurance	
We replace	We do not replace
If your car or light truck: Is damaged in a traffic accident with another vehicle and you caused the accident. Damaged in connection with a collision or run-off. Injured in an animal collision. Damaged by an external accident – for example, if a branch breaks the roof or a sudden unforeseen flood. Subject to damage by outsiders. Damage to a horse-drawn carriage caused by the emergency services as a result of a horse panicking. Internal damage to the horse-drawn carriage that affects its function and is caused by a horse.	Damage to a vehicle part with a design, manufacturing or material defect, if the damage was caused by the defect. If the damage is due to wear and tear or poor maintenance. Damage from rust, corrosion, cold, wet or damp. If the damage is due to an explosion in the car, for example in the engine. Care requirements Ensure that the vehicle is not driven if it has a driving ban. Make sure that the tires meet the requirements set out in statutes and regulations.
Deductibles	Either 3,500, 5,000, 6,500 or 12,000 SEK (privately owned passenger car), read your insurance statement. 4,000 SEK or 6,000 SEK (privately owned light truck). Either 4,500, 5,000, 6,500 or 12,000 SEK (legally owned passenger car), read your insurance statement. SEK 4,000 or SEK 6,000 (legally owned light truck) If the driver was under 24 years of age when the injury occurred, the basic deductible is increased by SEK 1,000 (in the event of simultaneous traffic injury, only an extra deductible is charged). No deductible if you collide with animals. Halved deductible if the damage is due to intentional damage by a third party.
Facts about the trolley damage guarantee	Most passenger cars sold in Sweden have a vehicle damage warranty that is valid for three years from the car's first registration date. If you have bought a fairly new used car, it may be worth checking whether there is a valid vehicle damage warranty. This is usually stated in the purchase documents, otherwise you can contact your dealer or general agent. If the car has a vehicle damage warranty, half insurance is sufficient, otherwise you need full insurance that also covers damage to the body.

Car insurance Large for passenger cars and light trucks – our best protection

Car insurance Large for passenger cars and light trucks can be taken out with or without vehicle damage insurance and gives you full coverage in the traffic and semi-insurance as well as extra protection in the event of, for example, losing or having to recode your ignition key, damage to the vehicle's interior and cargo space and refueling incorrectly. If you have Car insurance Large, Folksam Assistance and Rental Car are included. If you have Light truck insurance Large, Rental Car is included.

Extended protection with or without vehicle damage insurance	
We replace	We do not replace
New key or recoding if you lose your vehicle's ignition key or if it is destroyed. Sudden and unforeseen damage to the vehicle's interior in the passenger compartment and cargo area, or to the roof box and cargo carrier. In case of incorrect refueling: recovery and cleaning of the tank, pipes and filters. Any consequential damage can be compensated if you have valid machinery and electronics damage insurance. Mechanical and electronic damage up to 10 years and 150,000 kilometers, for passenger cars and light trucks.	More than one key loss per year and costs over SEK 25,000. More than SEK 65,000 in the event of sudden and unforeseen damage to the vehicle's interior in the passenger compartment and cargo area, as well as to the roof box and cargo carrier.
Deductibles	SEK 900 (privately owned) for each of the following damages: theft, fire, refueling, damage to the interior, loss of keys and rescue. SEK 1,800 for damage to glass and mechanical and electronic damage (when the vehicle has not been driven more than 8,000 kilometers for a passenger car and 10,000 kilometers for a light truck) excluding traffic, legal expenses and vehicle damage insurance. SEK 2,500 (legal entity) for each of the damages above.
Also included	
If you have Large Car Insurance, Folksam Assistance and Rental Car are included. If you have Large Light Truck Insurance, Rental Car is included.	
Folksam Assistance With Folksam Assistance you get quick help to get on if you get stuck on the road, even when you are outside Sweden. Read more about what applies in the Supplementary Insurance table. Rental car If your car or light truck is in the workshop after compensable damage, you will receive compensation for a rental car for up to 65 days. Read more about what applies in the Supplementary insurance table.	
Without vehicle damage insurance (semi-insurance)	
Protection for vehicles without vehicle damage insurance Protection for the car or light truck in the event of windshield damage, theft or fire, as well as in the event of incorrect fueling, interior damage and loss of keys. In some cases, you will also receive compensation if the engine or electronics in the car or light truck break down. This also includes legal expenses and rescue insurance.	
With vehicle damage insurance (full insurance)	
The entire contents of the half insurance above plus vehicle damage insurance.	
Additional insurance for your Light truck	
Folksam Assistance With Folksam Assistance you get quick help to get on if you get stuck on the road, even when you are outside Sweden. See What insurance do you need?	

This is always included in Car Insurance for cars and light trucks.

Crisis therapy
If you suffer from mental illness after an injury for which we compensate, you will receive up to ten treatments with a licensed psychologist or psychotherapist that we refer you to.
Legal protection – always included in your half or full insurance for Car insurance for passenger cars and light trucks
We will reimburse attorney and legal costs if you are involved in a dispute due to, for example, a traffic accident, car purchase, repair or sale of your car or light truck. You can receive legal protection if the insurance is valid when the dispute or suspicion of a crime arises and if it has been valid continuously for at least two years. The deductible is 20 percent of the cost, but at least SEK 1,800. There are rules for when the insurance does not apply, for example if you are guilty of drunk driving when the damage occurs.

Supplementary insurances

You can choose to supplement your regular car and light truck insurance with additional insurance that can provide you with additional compensation.

Folksam Assistance – help within one hour in Sweden, 24/7	
We replace	We do not replace
Within Sweden, we provide you and the vehicle's passengers with service within one hour if the vehicle stops working, for example if you are in a car accident, if the engine breaks down, if the vehicle runs out of fuel, if there is a puncture or if the vehicle is stolen. You will receive quick help to move on if you get stuck on the road, even when you are outside Sweden. We arrange on-site repairs, towing of the vehicle to a workshop or tire replacement if you have a flat tire. If it takes more than an hour to fix, we will arrange a replacement vehicle that you can use in direct connection with the incident for up to three days per claim. We will reimburse 100 percent of the daily and kilometer costs.	Spare parts and workshop repairs. Costs for food or other costs that you would normally have incurred, such as gasoline and tolls. If your fuel runs out, we will arrange a can of gasoline, diesel or similar to help you continue your journey, but you will pay for the fuel yourself. More than three accidents per year.
Deductibles	0 SEK
Rental car	
We replace	We do not replace
The cost of an equivalent replacement vehicle for up to 65 days – when you are unable to use your car or light truck due to damage that is compensable under property damage or vehicle damage coverage. The time is counted from the date the damage occurred and for the time it takes to repair your vehicle or obtain an equivalent. When repairing/replacing glass, we do not provide any compensation on the first day. In the event of mechanical damage, rental car insurance is valid for a maximum of seven days even if the age and mileage limits have been exceeded. We reimburse 75 percent of the daily and kilometer costs. The entire daily and kilometre cost if the damage occurred abroad. Make a good choice for the environment! <i>If you refrain from renting a car or light truck, you will instead receive 200 SEK per day - and at the same time make a good choice for the environment.</i>	The additional cost of renting a more expensive car or light truck than a rental car of the same size as your own vehicle. Costs for deductible reduction and deductible elimination, fuel, ferry transport and the like.

Layoff insurance

If you are not going to use the car or light truck in traffic for a longer period – take out a decommissioning insurance. It applies in Sweden when the vehicle is not in use and is decommissioned in the road traffic register. Fire, glass, theft and legal expenses insurance are included. Vehicle damage insurance is also included, but not for damage caused by a traffic accident.

New car replacement

If it is not cost-effective to repair your car or light truck after compensable property damage, we will replace it with a new car or light truck of the same make, model and year. This applies if the damage occurred within two years and the car or light truck has been driven no more than 4,000 kilometers from the time the vehicle was first registered.

The new car allowance applies to serially manufactured passenger cars and light trucks.

About the insurance

The insurance provides compensation in many situations where you encounter unexpected and unwelcome costs related to your car or light truck. This can involve both small and large losses, from a stone chip in the window to the vehicle being completely destroyed in a traffic accident. We will help you get the damage repaired.

You choose the scope

When you buy the insurance, you choose between motor liability insurance, half insurance and full insurance. If you choose half or full insurance Large, Folksam Assistance and Rental Car (passenger car) are included, which you can otherwise choose as additional insurance. If you choose half or full insurance Large, Rental Car (light truck) is included.

Take care of yourself and your vehicle.

To receive full compensation, you must be careful. Otherwise, you may lose all or part of your right to compensation.

Important

conditions There are two requirements of care that always apply to ensure that you can receive full compensation for damage to your vehicle. •You may not drive the vehicle if you do not have a valid driver's license or are guilty of drunk driving.

•When practicing, make sure that the rules are followed.

We do not compensate for damage to your vehicle.

•if it was damaged during a competition, training or similar in a competition area, for example a racing track •if the damage occurred during high-speed driving on a regular road – for example street racing.

General information This

is a summary of the insurance terms and conditions. These are the full insurance terms and conditions that, together with the insurance certificate, constitute the agreement between us. The insurance includes certain limitations and so-called due diligence requirements, i.e. requirements for caution. Some of them are described in this information, but we would like to draw your attention to the fact that the full terms and conditions apply. Contact us if you want them or download them from folksam.se.

Where the insurance applies

The insurance applies in the EEA countries and in other countries that are connected to the green card system. It also applies during transport between these countries. The lay-off insurance only applies in Sweden.

Insurance amount and premium The

insurance and premium are based on the information you have provided to us. The premium is affected by, among other things, how much you drive per year. You can influence your premium yourself by choosing a deductible where possible.

Report changed conditions!

If any relationship stated in the agreement between you and us changes and this affects the risk, you must notify us as soon as possible.

Otherwise, you risk being left completely or partially without insurance coverage.

Validity of the insurance

Your insurance contract is automatically renewed for one year at a time unless terminated by you or us. You can terminate the insurance at any time during the insurance period to be effective at the end of the insurance period. During the insurance period, you can terminate the contract to expire before the end of the insurance period under certain conditions, including in the event of damage or if the need has ceased, for example if you sell the vehicle or deregister it from the road traffic register. We can terminate the contract if the premium is not paid on time.

Right of withdrawal

When you take out insurance through a distance contract, for example via the internet or telephone, you have the right to cancel the purchase within 14 days. The time is counted from the time you entered into the contract, but at the earliest from the time you have received information and terms of the contract. If you want to exercise your right of cancellation, contact Folksam by telephone, e-mail or by writing to us. You can also use a cancellation form that you can find at konsumentverket.se. If you have already paid for the insurance, we will refund the money within 30 days with a deduction for the time the insurance has been valid.

What does property protection cover?

The insurance applies to the car or light truck in standard design and other normal equipment that belongs to the vehicle. Here we make a distinction between different types of equipment: If the technical equipment is factory-fitted, i.e. unique to the make and fitted to the vehicle by the manufacturer or by a workshop authorised by the manufacturer, the insurance covers without any amount limitation.

If the technical equipment is retrofitted, you can receive a maximum of 1 price base amount in compensation. The value of the equipment decreases for each year you have had it. If wheels, both tires and rims, are not provided by the dealer for the make and model in question, we limit the compensation to a maximum of SEK 50,000. Theft insurance applies with a scope limitation for vehicles with a value of SEK 1 million or higher. The vehicle must then be equipped with an activated SSF approved tracking device (SSF norm 1073).

If an approved tracking device is not available, compensation will be reduced by 25 percent in the event of theft. This limitation applies if stated in your insurance statement.

What does property protection not cover?

The insurance does not apply to things you have with you in the vehicle, such as a mobile phone, iPad, luggage or GPS.

What can you expect in compensation?

How much compensation you can get depends on the type of damage. It is always only the economic value that is compensated – that is, the market value of the property that was damaged just before the accident. Vehicles older than 30 years have a maximum compensation amount of SEK 300,000 in property protection. We make an assessment of how we should compensate you.

This can be done in cash, by paying for the repair of the damage or by replacing the damaged item with something of equal value. We place strict environmental requirements on the workshops we use. It is therefore important that you contact Folksam before ordering repairs or similar.

About deductibles and due diligence requirements

In some cases, you may have to pay part of the cost yourself – a so-called deductible. The amount that applies to you can be found on your insurance certificate. In some cases, you may have to pay an increased deductible, for example if the driver was under 24 years of age at the time of the accident. If you have violated any of the care requirements that we impose on you, we may reduce the compensation you receive, for example if the vehicle's maintenance has been neglected or if the driver was drunk when the accident occurred.

Processing of personal data

Folksam values your personal privacy and wants you to feel secure in how we handle your information. When you enter into an insurance contract with Folksam, we process your personal information primarily to fulfill our obligations under the insurance contract and to comply with the laws and regulations that apply to our operations. We also process your information when we have a legitimate interest in processing your personal information, for example to provide you with relevant information and marketing and to develop our products and services.

How we process your personal data depends on which products you have with us.

At folksam.se/personuppgifter you will find more information about how we process your personal data. There you can read about what personal data we process, for what purposes we process personal data, which parties we share personal data with and how you exercise your rights. You can also contact our customer service at 0771-950 950.

Claim registration

The company uses a common claims reporting register (GSR) for the insurance industry. This register contains certain information about the claim and information about who has requested compensation. This means that the company finds out whether you have previously reported any claim to another insurance company, occupational pension company or authority that handles similar claims. The purpose of the GSR is to provide insurance companies, occupational pension companies and authorities that handle similar claims with a basis for identifying unclear insurance cases and claims. In this way, companies and authorities can counteract the payment of compensation based on incorrect information as well as incorrect payment from multiple insurance companies for the same claim.

The data may also be used in anonymized or pseudonymized form for statistical purposes and analyses at an aggregate level.

The data controller for GSR is Skadeanmälningsregister (GSR) AB, Box 24171, 104 51 Stockholm. See www.gsr.se for more information about the processing of data contained in the register.

For the same purpose, we may also provide information to Larmtjänst AB, an industry-wide organization that works to combat insurance-related crime.

According to this condition, Folksam has the right to register reported damages in GSR and provide information to Larmtjänst AB.

Insurer

The insurer is Folksam Mutual Non-Life Insurance, Corporate Registration Number 502006-1619, Postal Address: Folksam, 106 60 Stockholm, E-mail: folksam@folksam.se. Telephone: 0771-950 950. Web: folksam.se Visiting address: Bohusgatan 14, 116 67 Stockholm
